Edition 5

### Featured Program: Embryology with 2nd Grade

Second graders at White Oak Elementary are currently participating in 4-H Embryology! On April 10th, each class was given eighteen eggs. Students have been turning the eggs three times per day and monitoring the temperature and humidity of their incubators. Chicks are currently hatching (4/30 - 5/1) in each of the classrooms! The 4-H embryology program aligns with the second grade life cycle standards.
